## THE NEW PARADIGM

The exponential growth in digital communication has introduced a new spectrum of data, far beyond traditional documents, inundating the review process with intricate and fast-paced information streams. This surge in complex data necessitates a revolutionary approach to data review, and that's where ChatCraft<sup>™</sup> steps in. Engineered as the new standard of chat review, ChatCraft adeptly addresses these contemporary data review challenges, transforming the way legal teams interact with the burgeoning universe of digital communication.

ChatCraft<sup>™</sup> offers an intuitive and efficient review of collaborative data from popular platforms like Teams, Google Chat, and Slack. Fully integrated with Relativity, ChatCraft facilitates a natural and efficient workflow for viewing, analyzing, tagging, and producing collaborative data. Its seamless compatibility with Amplify, our comprehensive technology suite, further enhances this capability by allowing legal professionals to include chat review in wider data review workflows.

#### Relativity 🕞 Integration

Integrates smoothly with Relativity for an enhanced user experience.

#### Advanced Tagging

Enables detailed tagging at multiple conversation levels - messages, daily chats, and conversations for precise data analysis.

#### Efficient Production

Facilitates quick extraction of relevant messages, reducing the need for extensive redaction.

#### Timeline Visualization

Maps all chat histories visually, highlighting key communication patterns for focused review.

#### Inline Attachments

Keeps attachments with conversations, providing context and depth to the review.

#### Amplify Integration

Syncs with Amplify suite for an eDiscovery approach suited to today's digital communication.
