

Lineal Compliance & Investigations

TACKLING GLOBAL ANTICORRUPTION

In a world where anticorruption regulations are intensifying and international cooperation is strengthening, the need for effective corporate compliance solutions is paramount. Lineal stands at the forefront of combating bribery and corruption, leveraging the surge in collaborative data from platforms like Slack, Microsoft Teams, and Google Chat. Our expertise in navigating the complex web of data these tools generate is unparalleled.

EXPERTISE IN CROSS-BORDER INVESTIGATIONS AND COMPLIANCE

Our depth of experience in cross-border investigations, compliance matters, and government enforcement activities uniquely positions us to assist clients worldwide. We deliver robust legal technologies through our Amplify suite, trailblazing hosting applications, and leading-edge processing and forensic resources.

ADVANCED EARLY CASE ANALYSIS

Our approach combines advanced natural language processing (NLP), AI machine learning models, and world-class litigation and compliance services for unparalleled insights:

- Sentiment Analysis
- Anomaly Detection/Pattern Analysis
- Support in over 180 languages
- Lineal Images: A revolutionary review interface for image files within Relativity
- ChatCraft: Enables efficient tagging and review of chat data

GLOBAL REACH

Our proven data collection and forensics experts provide global solutions, whether on-site or remotely. We operate in the Americas, Europe, APAC, and the Middle East.

EDISCOVERY & LITIGATION SERVICES

We offer eDiscovery technology that ensures quick and accurate access to relevant information, including in forensic services and investigations.
